## PROFILE SUMMARY

Software Engineer with 3+ years of experience in building scalable, high-performance web applications using React.js, JavaScript, TypeScript, HTML, and CSS. Skilled in frontend architecture, performance optimization, and testing. Experienced in API integration (REST & GraphQL), debugging complex issues, and enhancing application reliability. Familiar with cloud concepts, system design, and CI/CD workflows. Strong team player with proven ability to deliver user-centric, maintainable, and accessible solutions under tight deadlines.

## EDUCATION

Savitribai Phule Pune University

Aug 2016 – Jul 2021

Bachelor of Engineering (BE) – Information Technology

Pune

CGPA: 7.2/10

## EXPERIENCE

Wishtree Technologies

April 2022 - July 2025

Software Engineer

Pune

- Designed and developed scalable, responsive web applications using React.js, JavaScript, HTML, CSS, and TypeScript, delivering high-quality UI/UX aligned with client requirements.
  - Built modular and reusable React components to improve performance, maintainability, and consistency across multiple projects.
  - Integrated RESTful APIs and collaborated on GraphQL-based services, ensuring seamless data exchange between frontend and backend systems.
  - Strengthened debugging and problem-solving through frontend telemetry, logging, and custom error handlers, improving reliability and user experience.
  - Implemented unit and integration tests using Jest and React Testing Library; gained exposure to end-to-end automation tools (Puppeteer) for test coverage and quality assurance.
  - Contributed to system design discussions, following Agile methodologies, CI/CD workflows, and version control practices with Git/GitHub.
  - Collaborated cross-functionally with designers, backend engineers, and QA teams to deliver features on schedule while maintaining high code quality.
  - Exposure to cloud platforms and server-side concepts, supporting scalable deployments and performance optimization.
  - Enhanced UI/UX in WordPress, Flutter Web, and enterprise dashboard applications, optimizing for performance, accessibility, and responsiveness.
- 
- Key Projects:
    - Enterprise Dashboard Platform – *React.js, TypeScript, Redux, Tailwind CSS, Node.js, MongoDB*. Developed dynamic dashboards with real-time data visualization, role-based access, and optimized performance with memoization and lazy loading.
    - E-commerce Storefront – *React.js, Tailwind CSS, Stripe API*. Built secure, responsive checkout flow; integrated global state management (Context API) and persisted UX with localStorage.
    - Custom WordPress Solutions – *WordPress, PHP, HTML, CSS, JavaScript*. Delivered customized client websites with optimized SEO, performance, and plugin-free design.
    - Social Optics Tool – *Flutter Web, Node.js*.

Improved UI, state management, and responsiveness in a sentiment analysis platform, following MVVM architecture and cross-device optimization.

## Wishtree Technologies

*Software Engineer Intern*

Jan 2022 - April 2022

Pune

- Built frontend layouts using HTML, CSS, Bootstrap, and React.js
- Integrated backend logic with Node.js and Express.js
- Connected MongoDB collections and performed CRUD operations
- Explored Git, Visual Studio Code, and asynchronous JavaScript.

## TECHNICAL SKILLS

---

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass, Python, SQL
- **Frameworks & Libraries:** React.js, Redux, Node.js, Express.js, Tailwind CSS, Bootstrap, Material-UI, Flutter Web
- **Testing Tools:** Jest, React Testing Library
- **APIs & Integrations:** RESTful APIs, GraphQL, Stripe API Integration
- **Tools & Platforms:** Git, GitHub, Jenkins, Webpack, SonarQube, MongoDB, Swagger, VS Code, Chrome DevTools, Figma, Adobe XD
- **Methodologies & Practices:** Responsive Design, Agile/Scrum, CI/CD (GitHub Actions), Cloud/Server-side Concepts

## Extracurricular

---

**Open Source Contributor** – Contributed to frontend projects on GitHub (React components, accessibility improvements).

## LANGUAGES

---

- English
- Hindi
- Marathi
